

Scammell Commercial maintains a great relationship with MAN and MAN Financial Services.

Celebrating its 25th birthday this year, Scammell Commercial is a well-established commercial vehicle maintenance business based in Essex.

With the ambition to expand their fleet of vehicles to 50, David Scammell the owner of the business who started out as a one man independent repair technician, looked to MAN Truck & Bus UK Ltd and MAN Financial Services.

“Having introduced MAN vehicles into our fleet previously, we were confident of the vehicles capability and suitability to the needs of the business.”

“Roger from MAN Financial Services tailored a funding solution which was ideal for Scammell Commercial, so how could we refuse? The customer service has been excellent so far, and as for our future plans, we will be replacing some more of our older fleet next year so we will be sure to check out what MAN Financial Services can offer.”

Neil Livermore, Operations Manager for Scammell Commercial
