

“MAN FS have always been helpful and fast in expediting credit agreements”

Vicovanu keeps growing its fleet with MAN Financial Services

Vicovanu Ltd is a family run business that provides professional and reliable road haulage services to large companies all over the UK. The company was established in 2013 in Thurrock, Essex making this central location act as a Transport Gateway to the entire UK.

MAN FS Business Development Manager Roger Millar has successfully supported Vicovanu with funding solutions for their MAN TGXs. Just recently, Vicovanu put into service a new MAN TGX 26.510 6x2/2 BL SA on a Hire Purchase agreement from our portfolio.

Following their recent investment in the MAN TGX vehicle, we asked David Read, Transport Manager, why Vicovanu decided to bring another MAN vehicle into their fleet with MAN Financial Services. David shared with us that he's very pleased with our customer service and explains “MAN FS have always been helpful and fast in expediting credit agreements”.

David also added that MAN vehicles are an excellent product and he's dealt with Paul Hughes from PCL West Thurrock for many years now and is a good fit for MAN products.

Vicovanu is celebrating its 10th Anniversary next year and their business plans are to grow their fleet even further with additional MAN vehicles and the support of MAN FS during this process.
