How Operating Lease works

An Operating Lease agreement from MAN Financial Services allows you to lease a vehicle for a specific period which is shorter than the asset's working life. As well as low-cost fixed monthly rentals, you hold no risk on the resale of the vehicle at the end of the agreed term for this off-balance sheet solution.

This option offers the lowest pre-tax rentals of any finance products offered by MAN Financial Services. You have all the benefits of using a vehicle on the road, whilst bearing no risk of depreciation. At the end of the agreement you simply return the vehicle to us and, providing it meets the return conditions and mileage parameters agreed, there is nothing more to pay.
